Simplify path leetcode

/home//foo/ → /home/foo

/a/b//../../oo/c/ → /c/

/home/ℓ → /home

Conditions: .. → moves back one directory.

. , // or / doesn't matter.

Logic: 1) sp list the string into array

(a, b, .., .., c)

2) push to the stack if it's an element other than "", ".", ".."

3) pop if its ".."

/c ans
